SEE JAMES HARDIE IN ACTION

Watch James Hardie Take On Water & Fire

Two side-by-side demonstrations from James Hardie show what fiber cement does when standard siding fails: shrugs off direct water exposure, refuses to ignite under direct flame. The proof that 50+ years of Tampa heat, humidity, and hurricane storms can't shake.

WATER DEMO

Hardie® Siding Stands Up to Water

Direct-spray water test on James Hardie fiber cement vs. ordinary siding. Watch the moisture penetration difference — engineered for Tampa Bay's 75%+ humidity, salt-saturated air, and hurricane-season storms.

FIRE DEMO

Hardie® Fiber Cement Standing Up to Fire

Direct flame test on James Hardie fiber cement vs. ordinary siding. **Class A non-combustible** — the same rating that qualifies many Tampa homes for reduced wildfire and fire-spread insurance ratings.
